

ERIC SOLOMON BIO

Dr. Eric Solomon is a cognitive psychologist, former tech executive, and founder of The Human Operating System™ – a consultancy helping leaders build purpose-driven brands and narratives in an AI-accelerated world. Eric held leadership roles at YouTube (Team Founder), Spotify (Head of Brand), Google (AI Lead), Instagram (B2B CMO), and Bonobos (Global CMO). He's a Harvard Business Review contributor, TEDx speaker, Psychology Today writer, and professor at Fordham University's Gabelli School of Business. Today, Eric advises organizations on how to maintain clarity, connection, and human agency as the world speeds up.
